

Exploring Form

An After School Art Class

The new year is upon us and so is our next session of afterschool Art classes. This time we are venturing into the 3 dimensional. I love sculpture!

When most people hear the word “sculpture” they think of clay but it is so much more than that! At this time I don’t have the means to fire clay (though I hope to in the future). We will instead be exploring just a few of the many other materials artists use. We will even be working with an unusual sculpting material... packaging tape! Some projects will be small and some will be larger. We will add material to create some pieces, additive sculpture, but for other projects we will take material away, subtractive sculpture. I’m so excited to be working with 3 dimensional form with these students!

This six week series runs every Monday there is school through January and February! If you are interested in taking this class, there is an enclosed form that can be filled out and returned to the school office.

Please feel free to contact me with any questions. www.artwithmsaudrey.com
