

# Sculpture

## An After School Art Class

The final session of the year is here. We will be ending with a sculpture unit. There are many types of sculpture and we will have fun exploring different materials. For one project we will be using plaster strips and our own hands. For another project we will use clay to make a 2 piece bobble head.

I love working with 3 dimensional forms and am really looking forward to this session. We have 7 weeks to finish off the year which is perfect for working with sculptural projects since a few projects will take more than one day.

Absolutely NO experience is necessary. I'll lead you through each project with tons of room for individual expression.

This 7 week series runs every Monday there is school in April and May (April 9, 16, 23, 30 and May 7, 14, 21). If you are interested in taking this class, there is an enclosed form that can be filled out and returned to the school office or let me know by email or text and bring the form and payment to the first class. Please feel free to contact me with any questions.
